Why Strömsund or Härjedalen

- Specific Industry clusters
- Great quality of living – Combine Business and living close to nature and outdoor activities.
- Stable workforce & Well educated staff
- Government support
- Mid Sweden University
- Mid Sweden Science Park – Peak of Tech Adventure
- Close to Stockholm, Norway and The Baltic region

Contact center

- Already established Contact Centers in the Region have turned out to be the most profitable ones in Europe.
- Staff costs are reasonable and lower than in the UK, and Norway. The same goes for premises – much more competitive than major cities such as Stockholm. Telecom costs are generally low in Sweden.
- Competence. The industry is well established in the Region, with skilled workers available for both management and production.

- Grants for investment and training are available
- Midscand offers assistance based on actual experience in the Contact Center industry
- Language skills are excellent – English and all Nordic languages, with French, German and Spanish available as well.
- Mid-Sweden University offers the first Graduate Program for Contact Center Management and works closely with Midscand.
- The time zone fits most of Europe for daytime service and the US for night service.

- The quality of life in the area attracts young and well educated people from all over Northern Europe (Sweden, Norway, Finland, Denmark, Iceland and more)
- More than 30 Call Centers have already discovered these advantages – such as *Fujitsu-Siemens, Itella and Scandinavian Airlines. Samsung even moved their location from Scotland to Härjedalen.*

Tourism Härjedalen

- Unique nature with cross country and down hill skiing.
- Small and big investment- and development opportunities.
- The tourism Industry has a turnover of more than 1.5 Billion Swedish SEK
- Grants for investment and staff training are available
- Activities for both winter and summer
- The area is less than 1 hour flight from Stockholm.

Tourism Strömsund

- Unique spacious nature for hunting, fishing and excursions
- More distinct seasons than elsewhere
- Wild and clean nature - no resort developments yet
- Activities for both winter and summer
- The area is less than 4 hours from Stockholm.
- The fifth largest municipality by area in Sweden

Mechanical Industry

- Cluster of mechanical workshops (www.engcon.se www.mahlers.se www.gelab.se www.attacus.se www.scfbetong.se www.z-group.se)
- Strömsund has Sweden's most honored entrepreneur
- Staff costs are reasonable and low, the same goes for premises – much more competitive than major cities such as Stockholm.
